## LET BLUEVIOLET NETWORKS AND MOTOROLA ORCHESTRATE BRING THE FUTURE OF SAFETY TO YOUR ORGANIZATION

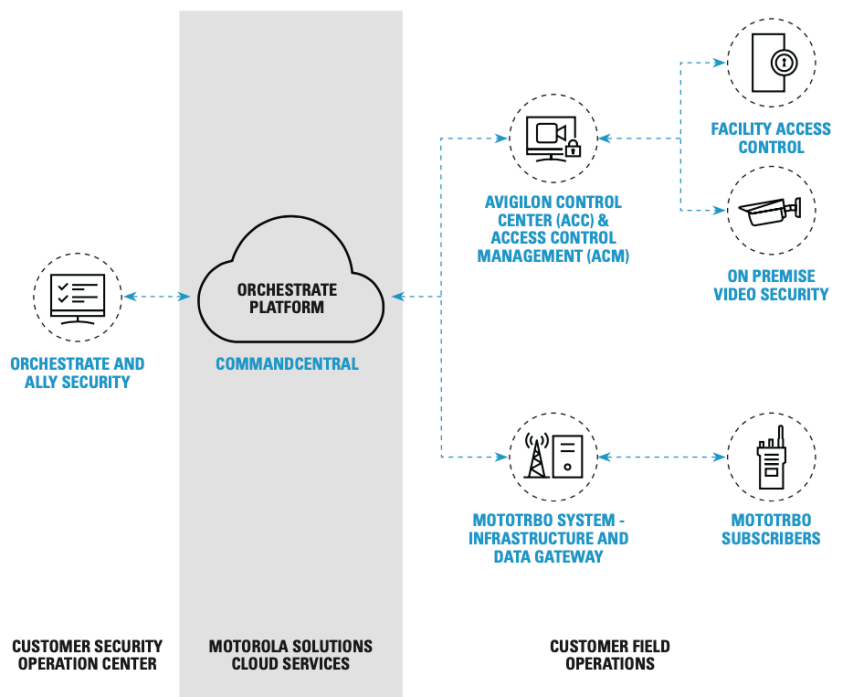

### TECHNOLOGY FOR A SAFER WORLD

Safety, efficiency and productivity are deeply interrelated. The technologies that make us safer can also make us better at everything we do - technologies that are unified by a common platform built to empower you to address the unique challenges of your operation. We've made that vision real by creating the first ecosystem to unify the technologies that keep us safe and enable individuals, businesses and communities to work together in more powerful ways. We call it "Safety Reimagined". The Safety Reimagined ecosystem integrates video, radio and software to provide a seamless workflow for you to help solve a wide variety of problems that you may have. Orchestrate is the tool that automates it all.

### LET INTELLIGENT WORKFLOWS DO YOUR WORK.

Your organization is being continually challenged to do more with less - and to do it quickly, efficiently and cost-effectively - all while protecting people's safety. When you are able to immediately recognize and respond to threats and unexpected events, you are able to focus on the work at hand. Ensuring nothing is missed. From simple machine-assisted decision-making to complex workgroup action and event management, Orchestrate empowers you to address the unique challenges of your operation, automatically. All so you can keep your focus on what matters most.
